The government would take proper measures for the protection of its rights. The announcement was fereived

Dr. Briggs cone uded his argument after having spoken four hours and twenty-seven minutes. In the course of his de-fense the doctor denied that he preached doctrines against the fundamental docrines of the church. He said he believed trines of the church. He said he believed the Holy scriptures to be the word of God, and affirmed that he held to the whole doctrine taught in the first chapter of the Westminster confession. He closed with an appeal, touched with a suggestion of pathos, that the case might go to the synod of New York.

Injunction.

CHICAGO, May 25. The first shot in the Sunday opening fight has been fired. United States District Attorney Gilchrigh has sent a telegram of instructions to Assistand District Attorney Hand, of Chicago, That official has already begun the work of drawing up a bill for an injunction restraining the World's Fire officials from opening the gates on Sunday. An application for an injunction is to be filed with the United States District Court as soon as completed, which will be Friday or Suturday.

THE BIG TALK.

Agita ion Over the Sunday Open- Sir Charles Russell Has Another

Unfairness of His Argument.

PARIS, May 25. In the Behring sea court of arbitration to-day Sir, Charles Russell's statement that the American pleaders cited the official report of H. W. Elliott, recording his observations in 1872-74, caused an exciting passage between counsel. Mr. J. C. Carter interposed with the assertion hat the counsel for the United Statesiavoided all reference to Mr. Elliott. Sir Charles Russell—"That is an awkward adm seion, seeing that the United States appointed Mr. Elliott commissioner after the controversy began."

In reply to the President, Baron De Courcel, Mr. Carter explained that he mistrusted Mr. Elliott because Mr. Elliott gave theories, not facts, therefore the counsel for the United States objected to being represented as citing him. Sir Charles desied the United States could justify the seizure of foreign vessels in time of peace as an act of self-deferse.

The Americans confounded acts permissible under international law with the rights of nations in time of war to do as they pleased to further their own interests. The Americans counsel's interpretation of seizures as self-defensive was an

ests. The American counsel's interpreta-tion of seizures as self-defensive was at ingenious after-thought, creditable to the subtlety of the minds inventing it, but valueless as a refutation of the British contention. Sir Charles Russell proceeded he international law govern sures of foreign vessels i to examine the international law

Miss Wiley and the Apollo Quartotte.

Miss Wiley as usual, sang very brillantly and was heard with great pleasure. It is song comprised both the bullad and ighter numbers and each was renged with much expression and sweetness.

Mr. Prescott was unable to be present as he appears at a benefit entertainment in Roston this forenoon, and his place was taken by Mr. Prank G. Reynolds, of Boston, whose humorous recitals, character stetches and song were given with excellent effect.

The songs rendered by the Apollo Quartette were enjoyable features of the programme, they being meiodiously sung, little Miss Patten made her first appearance and sang very sweetly and intelligently. She evidently his much talent and has been well taught. M sambel Jones also made her debut and the duct with Miss Patten was very pleasingly rendered.

Master Hal Sawyer made a fine impression in his violin solo and obligato and planed with the skill of a vectoru).

Ciptain Collins, of the fisheries build ing at the Worlds half has a little exhibit in the east gallery of his building which has excited a great deal of interest on the pirt of all who have seen it. Artists as well as casual observers pronounce the exhibit the most unique of anything ever produced in the picture line. It consists of a series of minimum reproductions of some of the celebrated partures of the night, together with some original ones all nge, together with some original ones all

some of the celebrated pactures of the ngc, together with some original ones all worked out in seawed and common beach shells. The artist who conceived this original work is Mrs. Alice E. Stanley, of Ashion R. I. Bits of lobster clean, crab shells and the shells of a great variety of other tish such as can be picked up along the recent beach are the material used in these curious pictures. In some cases the background of the pactures is sketched in, but all the figures are worked out in relief with these tiny shalls and seaweed. So well are the effects blended that it takes almost a micro-copic examination of the pictures to see just how they are made. At a short distance it is impossible to detect that the pictures are not painted in the regular way. The perspective in all, and particularly in the case of 'the kight of the Cranes, is exceptionally good.

In the groupe are reproductions of 'Columbus Discovering America, St. George and the Dragon "I anding of Roger Williams, 'The Angelus, and other well known paintings.

The pictures are lung around a larger frame on which are mounted reduced size photographs constitute a peculiar feature of the exhibit as they bring the effect of the pictures out perfectly and show just the impression made upon the eye when looking at the originals for a short distance.

Unfortunately Captain Collines ald not have snace to install this intersection.

Unfortunately Captalu Collins did not have space to install this interesting little exhibit on the lower floor, but it is well worth a hip to the gallery to see it
